

Editorial

Introduction of the Journal of Applied Virology

*By Dr. Wenbo Zhang**

Aims & scope

Journal of Applied Virology is an open access, peer reviewed journal that considers articles on all aspects of virology, including research on the viruses of human, animals, plants, bacteria and fungi. And the journal also considers articles on biological products, especially for viral vaccine etc. The journal welcomes research on virion structure and assembly, viral genome replication and regulation of gene expression, genetic diversity and evolution, virus-cell interactions, cellular responses to infection, transformation and oncogenesis, gene delivery, viral pathogenesis and immunity, and vaccines and antiviral agents, and as well as novel methods on virology and pre-clinical and clinical studies of anti-viral therapies.

Author guideline

When you've get some research work, you can organize them to a paper. It's our honor to receive your manuscripts. You can submit your paper to us via email: Jav@biosky.org. Then after the editor's primary checking, your paper will send to two reviewers as soon as possible. Your paper will be declaring in about four weeks, that is to say accepts, revised or refuse.

Publishing

The journal of Applied Virology (abbr. JAV) is sponsored and published by the Hongkong Institute of Biologicals Standardization Limited (HIBS). The Journal is a quarterly publication, and each issue published on the first month of each season by the HIBS.
